Phone: 734-761-2430

Website: <https://chapelhilla2.com>

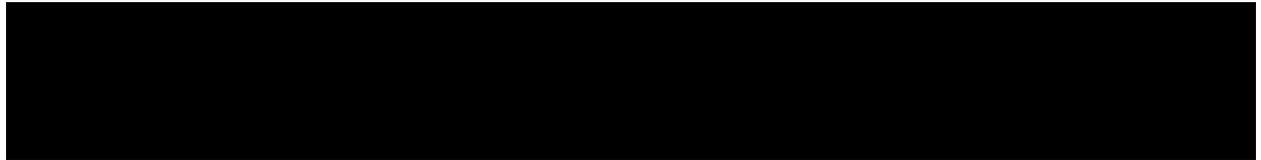

Email: admin@chapelhilla2.com

Emergency # 734-761-2822

Electric Vehicle charging station survey

Chapel Hill is investigating installing Electric vehicle charging station(s). We are in the beginning stages of looking into different options. There is a survey in the email attached, it is in word format with yes and no question. Please highlight your answer, (yes or no) and email back, or you may print and deliver to the office. We appreciate your feedback on this project.

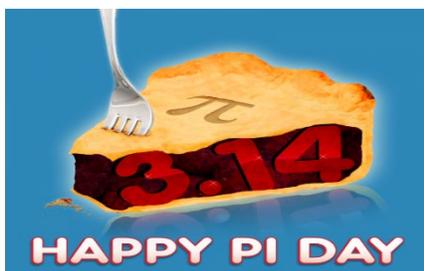

The Difference Between Four-Leaf Clovers and Shamrocks

Both shamrocks and four-leaf clovers are associated with St. Patrick's Day, and they're commonly mistaken to be the same thing. A Shamrock is the name given to a clover with three leaves and is not linked to luck. The four-leaf clover is considered lucky because they're much rarer.

National Pi Day (March 14) recognizes the mathematical constant Pi with the first three digits 3.14. Commonly celebrated by eating pies or participating in Pi-themed activities.

Spring Ahead

Remember clocks are springing forward on **Sunday, March 13, 2022**, bringing an extra hour of daylight!

Daylight Saving Time History

In the United States, daylight saving time was first used in 1918 when a bill introduced the idea of a seasonal time shift. It lasted seven months before the bill was repealed.

During World War II, President Franklin Roosevelt re-established the idea of daylight-saving time. It was called "War Time."

War Time began in February 1942 and lasted until the end of September 1945.

In 1966, the Uniform Time Act of 1966 established the idea of regulating a yearly time change. Daylight saving time would begin the last Sunday in April and end the last Sunday in October.

During the 1973 oil embargo, the United States Congress ordered a year-round period of daylight-saving time to save energy. The period would run from January 1974 to April 1975. The plan did little to save energy and in October 1974, the U.S. switched back to standard time.

From 1987 through 2006, daylight saving time started the first weekend in April, running through the last weekend in October.

In 2007, the start and end of daylight-saving time shifted again. That year, it began on the second Sunday in March, and it ended on the first Sunday in November.

Chapel Hill Sales

One Chapel Hill home sold in February 2022. The sale price \$267,500.

Chapel Hill has an available garden plot this year and we would like to donate it to two of our residents. <https://www.projectgrowgardens.org>

We have one plot that we are dividing into two plots, each 15' x .25

If you are interested in entering the drawing, email admin@chapelhilla2.com. Add, Garden plot drawing to the subject line.

The deadline to submit your entry is April 7th, 2022. We will randomly pick two lucky winners. They will be notified by April 8th.

- You may enter work orders, pay your association fees, view your ledger, update your information online through your resident portal, (in apps search for “Online portal by AppFolio”)

Or you can go to our website, chapelhilla2.com, go to owner resources, select payments, or submit work order and sign up for your account.

- The Pest Control contractor is here every Thursday.
- The city picks up recycling every Thursday. Regular trash dumpsters are emptied up every Friday.
